The Process We Follow for Data Enhancement

How we enhance your data

PHASE I

Collect Database

Data Analyzed

Data Status Report

After the data status report is prepared, we have a discussion with our client before going into Phase 2

How we enhance your data

PHASE II

Verify data structure

Data Cleansing

Match with Master
Data

Data Verified &
Appended

What next...

On completion of the two phases, the updated database is reformatted and verified again by the appending team for the final time, to avoid discrepancies, if any.

How we deliver

The file is then converted to it's original format and delivered to the client by or within the delivery date.

We provide the client with an option to upload the appended file in their FTP or send via any other media. For security reasons, no file is sent to the client via email.

Our Data Services Benefits...

Fill 80% of your database with immediate buyers

Increase marketing efficiency without increasing overheads

Ensure faster turnaround of data-centric projects

Deliver verified, trusted and fresh business contacts

Improve marketing productivity
