Best Database Solutions:

Data Solutions Services

Data Management

Direct marketers would surely agree with this: 6% of data decays every month, resulting in a need for constant data updation and repair. B2BDataPartners brings forth a unique data management solution to keep your data squeaky clean.

Data Online

B2B DataPartners provides you with the most exclusive and highly targeted database to make the best out of your direct marketing efforts. Now you can increase your marketing ROI with database that includes detailed fields such as titles, location, and other demographics.

Data Verification

Verifying the data collected is crucial for the success of any marketing database. Through this service, you can ensure that the contact records in your database are correct, fresh and active.

Hard Bounce Management

B2B DataPartners' smart bounce management removes all bounce ids and eases your burden of correcting the invalid address. Our proprietary bounce management tool can scrub your existing customer database by verifying against our bounce back file.
