"Thanks a lot!!! You gave us high-quality contact information for a wide range of professionals from real estate owners to doctors. And the data was sorted just fine so that we can easily identify and accurately target who we want to reach. But what sets you apart is your customer service. At any time, day or night, I can reach out to our account manager and know that I'll receive a prompt response to any and all questions. And if he needs to perform research to give me an appropriate answer, he'll keep me posted at every step so that I know my interests are being addressed. Working with B2BDataPartners has been a pleasure that I hope to enjoy for many years to come."

"The list we bought from you was first-class. I wouldn't hesitate to use you again. And thanks so much for your suggestions on maintaining a campaign list. I would have my sales team do them asap. I would also like to use your appending services for our other databases!"

Julie Hopkins | Business Development Manager

"We recently purchased a list from B2BDataPartners. While the list was exactly the type of contacts and companies we requested, we found that you did not have enough of the type of contacts we had requested to fill the minimum order required (it was a small slice of people, I understand). However, you were able to make up the difference with second set of contacts with criteria that we approved. We emailed the two lists immediately and found that about 25% of the addresses bounced back as undeliverable. And I'm impressed that you provided us a very comprehensive list of 5,000 top business executives for no charge. In summary, while we had some obstacles along the way, B2BDatapartners has acted to rectify each situation and ended up going above and beyond the original request.

Thank you for your help.

Summer Morgan | Marketing Manager

"Thank you for your call. My experience with your sales rep was great. He was very helpful, it was easy to reach him and he accommodated to all of our requests. The quality of data was good too. I didn't have to waste my time to re-choose the data based on sectors etc. online again, like some of your competitors let you do."

Regards,

David Johnson | Senior Sales Manager

"Thanks for your help! Appreciate your time and efforts in understanding our campaign requirements and giving us the best list you had. It's truly the best-in-class. We couldn't have built such a detailed verified list in-house. Your customer service is excellent."

Per our conversation, I was able to identify 3 leads from the list provided with 2 being significant, which proves the value of the lead lists. With that said, I would recommend the lists to others as valid sources for business prospecting."

"I wanted to thank you for helping me resolve the issue with my first list. You worked hard to get me the relevant contacts I needed and I appreciate it. Also, I wanted to thank you for trying to get me the rushed list I needed last minute. Although it didn't work out for me to purchase the list this time, your willingness to go the extra mile shows me that the next time I have an urgent need; I'll be able to count on you and your team to help me out."

"We were in the process of determining the best approach for acquiring lists to carry out great campaigns. Your company is the only one that offered solid, verified email addresses in a well compiled list. Within 24 hours of receiving the append file we had a contract in place and forwarded our first list. We received our file within three days and it included the key decision makers we were looking for."

I would definitely recommend you guys and use you again myself. You were professional, responsive and quick. Thank you.

Julie Stevens | Business Development Manager
